EDUCATION

Ph.D. in Operations and Analytics

Business School, Imperial College London (ICL), London, UK.

Sept. 2022 – Jun. 2027 (Expected)

Advisors: Prof. Xiaocheng Li and Prof. Kalyan Talluri

M.Res. in Operations and Analytics (Distinction)

Business School, Imperial College London (ICL), London, UK.

Sept. 2021 – Jun. 2022

B.S. in Mathematics and Applied Mathematics

School of Mathematical Sciences, Peking University (PKU), Beijing, China.

Sept. 2016 – Jun. 2021

RESEARCH INTERESTS

My research focuses on enhancing the alignment, robustness, and ethical deployment of large language models (LLMs) through interdisciplinary frameworks of human-AI collaboration, game theory, statistical learning, and optimization. I aim to develop both theoretically guaranteed (e.g., convergence analyses, complexity bounds) and empirically valid methodologies. My research interests also lie in the development and theoretical analysis of machine learning models, with a particular focus on the role of uncertainty, including uncertainty quantification, active learning, and human-AI interaction.
